

Dynamic Flat Trumpet Siren

AMSECO's FSS series sirens are extremely loud, and surprisingly small. The FSS models are about half the size of standard 15 watt trumpet sirens and put out 125dB! These little screamers are almost as powerful as a big 30 watt horn! However, these units are not a high pitched piezo.

Both models utilize a unique reverse trumpet (patented) technology to generate the loudest sound blast. In addition, both models provide six dip-switch selectable siren sound options. These sounds can be set individually or programmed sequentially. The FSS 26T is an indoor/outdoor design with a reversible mounting bracket. The FSS-36T is an indoor only surface mount model.

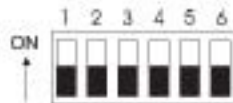

Features:

- Wall or ceiling mount
- 6 dip-switch selectable sounds
- 125dB sound output
- Impact resistant housing
- Low profile design
- Patented design
- Bi-directional mounting bracket
- Water-proof housing
- Designer white housing
- FSS-26T: 3.34"(W) x 3.34"(L) x 2.16"(D)
- FSS-36T: 3.56"(W) x 3.56"(L) x 2.25"(D)

Multiple Tones:

- (1) Yelp
- (2) Ray Gun Warble
- (3) European
- (4) Slow Whoop
- (5) Pulsing Buzzer
- (6) Ray Gun Yowl

Select the tone by setting the DIP SWITCH to ON.

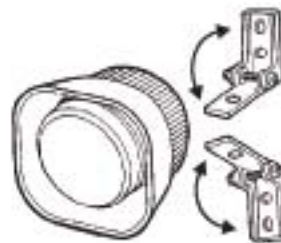

Dimensions:

3.34"(W) x 3.34"(L) x 2.16"(D)
